

Have you registered?

It's an easy, convenient way to receive school messages.

Communicating with you is an important part of what we do, making sure you get the correct information about activities, events and school news that really matters is something we care about. Therefore, we have now launched Parentmail to enhance communications with parents / carers. The benefits to this are that we can use ParentMail to send home forms, permission requests, surveys, parents' evening bookings, meeting / event invitations and so on.

Using the ParentMail secure payment facility, you can also credit funds online too, this means that you can top up your child's dining account, pay for school trips and so on.

With ParentMail, as well as receiving emails, you can also easily pick up school messages on your smartphone. To log in or register for ParentMail, please follow the instructions you were sent in the text message or email which you received. Alternatively, if you have not yet received a registration request, please contact school to confirm your mobile / email details and we will send the request to you again.

Once registered, if you have an Android or Apple smartphone, we highly recommend you download the ParentMail App for the best user experience. To do this, simply search for "ParentMail" in your App store. We would like to encourage all parents to download the free APP as there are a number of benefits, both to you and the school :-

- You don't need to login to pick up messages or attachments when you use the App.
- The App stores all the messages we send you in one place.
- Every message sent arrives as an instant alert on your mobile.
- You help save us money!

You can download the App free from

This will allow you to:-

- Access ParentMail, even when there is no network connection.
- No need to search through your busy personal inbox for school messages.
- Instant access – no need to login to complete forms or read messages.
- In app 'notifications' help make sure things don't get missed or forgotten.
- Helps preserve your data allowance.
