

All pupils expected to complete one piece of homework per week

<p>Research referee signals. What do they do before/ during and after the game? Why is this important?</p>	<p>For your 2 sports, try to write a short essay comparing the roles of officials for each sport. How are they different? How are they the same? Which official has the harder job and why?</p>	<p>Describe ways in which your sport at the elite level has changed its rules/ scoring systems. Recommend ways it could be made better for referees.</p>	<p>Within your table, justify why you have given yourself the score that you have for each aspect of the sport.</p>	<p>For your drills, you include a series of short, medium and long term progressions in order to continually work on your identified weaknesses.</p>	<p>Write a few paragraphs that outline some of the key tactics/ strategies that teams use for success in your sport.</p>
<p>For one of these two sports, begin to explain these rules and regulations in a combination of words and diagrams so that a person new to the sport could understand.</p>	<p>Are there any regulations for equipment required to play this sport? Why is this significant?</p>	<p>Give examples of times when a goal/point may be disallowed.</p>	<p>Within your observation tables; refer to components of fitness and specific skills/ techniques.</p>	<p>Use a combination of diagrams, teaching points to add depth to your drill design.</p> <p>You can set SMART targets to motivate you to improve at your weaknesses.</p>	<p>Having written your question (below), write a model answer.</p>
<p>List 10 rules and 5 regulations for each of your 2 sports</p>	<p>Create a birdseye diagram for the pitch/court/playing area for your sport. Include official measurements for size guides.</p>	<p>Using a series of bullet points, explain the scoring system for both of your sports.</p>	<p>Begin to design an observation table that can be used to score your own performance in your 2 sports</p>	<p>Describe a drill that could be used to improve one of your weaknesses in each sport.</p>	<p>Write a question that can be used to test a fellow class mate about their knowledge of your sport.</p>
